## Tree Hill Nature Center

County: Duval

PCL Size: 50.3 acres

Project ID: NE-017 13 acres \$15,022

Project Manager: Tree Hill, Inc.

Lucille G. Cortese, Executive Director

7152 Lone Star Road, Jacksonville, Florida 32211

Phone: 904-724-4646, Fax: 904-724-9132

E-mail: treehill@bellsouth.net (www.treehill.org)

Tree Hill Nature Center, located in the heart of metropolitan Duval County, remains the only wilderness preserve and environmental education center serving the Jacksonville community. The Preserve consists of a variety of habitats over a small area, including riverine-mixed hardwood forest, hydric hammock, and mesic hammock. Past clear-cutting, removal of topsoil, and planting of non-native species had disturbed approximately seventy percent of the land. Air-potato invaded much of the tract (ninety-five percent of the infestation was air-potato) with a few other invasive plant species scattered throughout the project area. Exotic plant coverage varied between ten to seventy percent.

<b>Target Plants</b>	<b>Common Name</b>	<b>FLEPPC Rank</b>	<b>Treatment</b>	<b>Herbicide</b>
<i>Albizia julibrissin</i>	mimosa	Category I	basal	Garlon 4
<i>Ardisia crenata</i>	coral ardisia	Category I	basal	Garlon 4
<i>Cinnamomum camphora</i>	camphor tree	Category I	basal	Garlon 4
<i>Dioscorea alata</i>	winged yam	Category I	foliar	Rodeo+Escort
<i>Dioscorea bulbifera</i>	air-potato	Category I	foliar	Rodeo+Escort
<i>Ligustrum</i> spp.	privet	Category I	basal	Garlon 4
<i>Melia azedarach</i>	Chinaberry	Category I	basal	Garlon 4
<i>Nandina domestica</i>	nandina	Category I	basal	Garlon 4
<i>Sapium sebiferum</i>	Chinese tallow	Category I	basal	Garlon 4
<i>Broussonetia papyrifera</i>	paper mulberry	Category II	basal	Garlon 4
<i>Elaeagnus pungens</i>	silverthorn	Category II	basal	Garlon 4
